We provide standard die cut shapes that can be applied to many designs but we always encourage creativity and appreciate individuality. Consider using the outline of your logo as the shape of your tag or cutting something within the design in particular. We can provide die cut layouts/templates for your convenience and if necessary. Our design team is ready to guide you through the process.

Yes, the paper really is plastic! 20pt Plastic that comes in three finishes: White, Clear or Frosted. Plastic business cards have great durability, are tear resistant, and can be fully submerged in water; making them one of the most durable products we offer.

Due their transparency characteristics, clear and frosted cards have to be carefully designed to maximize the effect. Light colors and thin fonts are not advisable although frosted cards provide a little bit more saturation than clear cards.
